## MED HIGHLIGHT MED IN SWITZERLAND

### Product features:

- **Light is color – color is atmosphere**  
MedHighlight creates an ideal room feeling. It generates a bright and enlightened ambiance and a homogenous illumination of the room. Despite the great illuminating power, MedHighlight is almost nonglare.
- **Maximum illuminating power with minimal energy consumption**  
Inside our MedHighlight panels premium LCC crystals ensure a constant light flow allowing for time of operations of more than 50'000 hours. With very little energy consumption, MedHighlight ensures very high illuminating power.

### Technical information:

- Operating temperature: -20°C - +40°C
- Air humidity: -80%RH
- Light efficiency: 50-80 lm/W
- Angle of radiation: 150°
- Operating voltage: AC90-240V, 50/60Hz

### Performance overview:

MedHighlight 300 x 300 x 13mm (day-/warm-white/RGB)  
performance 18W, weight 1.3kg

MedHighlight 600 x 600 x 13mm (day-/warm-white/RGB)  
performance 36W, weight 2.6kg

MedHighlight 1200 x 300 x 13mm (day-/warm-white/RGB)  
performance 72W, weight 4.7kg

### MedHighlight – color palette special colors on request

Day white
